TO LAND NEAR PLAZA SITE

As soon as one deed can be signed, the city will come into pos-

long negotiations by the offices of the Comptroller and City Counselor but a compromise was reached. Other heirs of the same estate had sold the other eight-ninths to the

city for \$201,200. Another estate sold the 110 front feet at the north end to the city for \$235,000. Price per front foot of this strip averaged \$2200, the total, \$462,000,

coming from the Memorial Plaza bond item. There had been mo-

mentary fear that the monumental Courthouse would be completed only to face ugly structures held by the private interests. Purchase

### COUNTY COMMERCE CHAMBER DISCUSSES PLANS FOR 1928 oposes to Take Up Merger With City or the Consolidation of Suburban Towns.

Undaunted by the defeat of \$11,-50,000 of the \$12,750,000 bond issue which it sponsored in St. Louis County, directors of the County Chamber of Commerce met at the American Hotel yesterday and discussed plans for activity next year.

Among public matters with which the chamber proposes to deal are the county sewer problem, construction of the belt highway from Mehiville to Pattonville by way of Kirkwood, possible resubmission of the defeated bond items, plans for the \$1,000,000 public county hos-pital for which bonds were voted. merger with the city or consolida-tion of suburban towns, opposition to any merger plan regarded as unfair, support of the County Court

in economy measures and prepara-tions of a general road plan. The directors were assured that the Supervisory Committee of 25 citizens accepted by the County Court to direct bond expenditures would function soon. A Nominat-ing Committee was named, following announcement of Joseph R. Matthews, president of the cham-

ber, that by-laws prevented the president from succeeding himself It was announced that a booklet on needs of the county and on 1927 ctivities of the chamber was under preparation, and that a camfrom 900 to 2000 would begin next

### Ohio Woman Confesses Hammer Murder-Says They Quarreled Over Card Party

ST. LOUIS POST-DISPATCH

related how, after battering her prehended. drove to Cleveland and played tiary.

Mrs. West's story as retold by Prosecutor Seth Paulin, begins with a quarrel in the West home near Painesville, O., over the bridge party. The husband, Thomas Edward West, son of T. B. Best, nursery man of Perry, O., objected to the bridge date, according to his wife's story, because he was ill and needed attention.

While her husband was getting ready for bed, according to the confession, Mrs. West got a hammer, went upstairs to her hus band's bedroom and attacked him as he sat on the edge of the bed removing his shoes. The first low felled him, the prosecutor says she told him, but to make sure he was dead she picked up the broken leg of a table and be labored his head and face.

Wrapping him in bed clothes she then tied him up with twine, according to the prosecutor, changed her clothes, got their roadster out of the garage and drove to the apartment of Miss Mabel Young of East Cleveland, with whom she had the bridge engagement. While there, according to the prosecutor's story, she washed her hands, still blood stained. This done, she played bridge with several people until 11:30 p. m.

### **WEST SWEPT BY** ZERO GALE, SNOW **BLOCKS HIGHWAYS**

Blizzard Raged From Colorado to Ohio Valley and From Canada to Gulf of Mexico.

the Associated Press.
CHICAGO, Dec. 8.—Winter came in earnest to the Middle West today, pushed southward by a 50-mile an hour gale accompanied y heavy snowfall and below-zero emperatures. The cold was felt from Colorado to the Ohio Valley and south to the Gulf of Mexico. Temperatures of 20 below zero train service was jumbled and traffic was almost at a standstill in many parts of the state. Minne apolis and St. Paul called it the vorst blizzard in four years. S Paul and Sioux Falls, S. D., were mong the larger cities forced to lose their schools, while at Mineapolis classes were dismissed a e University of Minnesota for the first time in history.

Malta, Mont., with 35 below, had he lowest temperature reported. Bynum, Mont., reported one death, that of 5-year-old Theodore Hirschberg, six fatalities were reported in Canada. The boy perished when he attempted to take ome warm clothes to his sister at

The storm wrought havoc among Great Lakes shipping boats in the ongested Detroit River channel and seriously affected ferry service to Windsor. A tug boat's crew of five was safely landed by fireboat rescuers after it had been lashed about and driven upstream in the face of the gale. Three occupants of a rescue boat narrowly escaped drowning, when they capsized on the way to aid the crew of a aunch which had been driven or he rocks near St. Clair. The Wabash car ferries Manitowoo and Detroit, unab's to dock, rode out

he gale in the river channel. Snowdrifts were piled high in lowa cities. Sioux City reported 11 below, the coldest Dec. 7 on record. As far south as Des Moines the mercury was below zero. Waterloo, which had five below, was forced to abandon its street cars for busses, and schools were dismissed early. In the eastern part of the State, Cedar Rapids, Iowa City, Burlington and Dubuque saw the thermometer tumble from the forties to near zero in nine hours.

40-Degree Drop in Chicago. Chicago was experiencing rain and autumn weather of 51 degrees at 3 p. m. but five hors later the mercury had dropped 40 degrees Accidents due to slippery streets caused the death of three persons and injuries to several others. In Evanston and Glencoe the gale up-rooted trees, shattered windows, and interrupted lighting service. . Northern Wisconsin was icelocked in sub-zero temperature. Drifting snow in the upper Michigan peninsula rapidly was closing highways and impeding rail traffic. Antigo reported 12 inches of snow. Trains were behind schedule at Chippewa Falls. Storm

vessels were locked in the harbor by five inches of ice. Highway police vainly struggled to keep highways open. Air mail service in and out of nicago was at a virtual standstill, with but one plane leaving esterday on any of the city's five air routes. E. L. Sloniger, pilot of this plane, was forced down at

the lake region, and at Green Bay

Abbe Dimmet of Notre Dame. Paris, Discusses "Inward Cinema"-Praises Wilson.

ng his money's wort hin offering A penny for your thoughts," was scussed by Abbe Ernest Dimnet the Cathedral of Notre Dame, Paris, yesterday at the Wednesday

"There are two kinds of hought," he said. "There is the endless streaming of the inward inema-images, wishes, repulsions. memories, hopes—and then there is real thought. The way an artist ooks at a masterpiece, projecting his whole soul into it, that is real

"You may remember from your ollege days that someone in every lass was depended upon to do the hinking for the whole class. Most people are waiting for somebody to lo their thinking for them. Who does the thinking for the United

Wilson Thought for 40,000,000. "A few years ago a man did the thinking for America in a great crisis. Others did not like his thinking, and thought divergently for themselves. But Wilson thought for some 40.000.000 Americans ought to be a little discouraged and

umiliated. Instead, we wish we could do like that, and at length achieve the theory that, given equal opportunities, we could have been

Y'Why do we think we could be like that? It is in us. We have had great thoughts, once. Music will bring real thought, or a stir-ring book, or even the very appearance of some men and women wh are great thinkers.

"Most human beings seem to be most themselves in their thinking capacity when very young, 8, 9, 10 or 11 years old. Those who are young enough must remember the exceeding thinking capacity of

"Week before last in Los Aneles, I heard a child of 6 ask, Where do yesterdays go?' Per-haps you remember, 'When people do not ask about time and space, know what they are. When they do ask, I do not know.' Deteriorating Under Pressure.

"That has been in us. We re-member it, and we realize that we are deteriorating. We blame it on society, with its demands and fool-Ishness, our education with its shortcomings, the press of circumstance that drives us heedlessly on —and we are right—and we say, 'If only I could get at those roots of real thought once more.' "People have been known to go back to them. Balzac for 10 years rote trash, and then at 29, he

rought out very nearly a masterece, and almost every year afterward he produced a classic. "Visibly he had learned an art of thinking. Suddenly he recognized the treasure in his experience and began to draw upon it. And

there is the basis for real thought, be yourself in your thinking. "We cannot choose our own thoughts, of course. I can force thoughts upon you, and you cannot escape them. That is true always. Life through all time forces thoughts upon us. But there is no hink, and not having thoughts.

"Think of all the gossip we listen to. If it were really malicious, it would be amusing, but it is not malicious. It is merely innocuous, "But there is the gossip of the great world-the vast play of forces in Asia, the great experiment of Russia, all the tremendous drama of the last 15 years—all of it passionately interesting, and all of it for anyone to see in the daily newspapers. What is history but a col-lection of old newspapers? And we talk about Jones and Brown.

Hold Fast to Interests. "Any masterpiece that bores you. drop it. If any really interests ou, keep it. You have found the real companions of your mind, and next week or next month you will see the result.

"There is a very simple rule for There is a very simple the the being near to your own thoughts. Never take great thoughts as they come. Always resist them, contralict them, test them with thoughts of your own. Be yourself.

"You do not want to be literary. do you? What is the use? But we want to live, and how can you live

thout thinking?"
Abbe Dimnet will give his impressions "From a Paris Balcony" at a dinner of the Alliance Francaise at 6:30 p. m. tomorrow at Forest Park Hotel. The address will be in French. He is to speak tonight at a meeting of the Woman's Round Table, and at 3:30 p m. Saturday, his only public address in St. Louis, at the Art Mu-

y the Associated Press.
CHICAGO, Dec. 8.—A youthful automobile thief last night became the first victim of one of the Detective Bureau's new machine-gun squads with the killing of Frank Lukte, 19 years old. The youth was shot down by the bureau squad after he and two companions had abandoned a stolen motor car. The two others escaped, but Lukte's body was found in an alley a short distance from where the automo-bile had been deserted.

opyright, 1927 by the Press and Pullitary Publishing Cos. (The New York World and Post-Dispatch.) GENEVA, Dec. 8.—After a spirted tilt between Premier Waldemaras, dictator of Lithuania, and Foreign Minister Zalesky of Po-land, the Pollsh-Lithuanian dis-pute was referred by the League of land of the Netherlands for a spe-cial report. Van Blockland said he would try to have his report ready for Marshal Pilsudski when he ar-

rived here tomorrow. •
For two hours yesterday Waldemaras denounced Poland, charging her with planning to march on Kovno and overthrow the Lithuanian Government. He accused Poland of bad faish in seizing Vilna three weeks after President Paderewski of Poland had piedged the friendship of the nation to Lithuania. This was cited to Zalesky by Waldemaras when the former offered to "shake hands and forget." ### The MIRROR of PUBLIC OPINION

This column is designed to reproduce without bias the latest comment by the leading publicists, newspapers and periodicals on the questions of the day.

"LOOK AT ST. LOUIS."

From the Kansas City Times. THE twofold lesson from the big public

improvement program now going forward in St. Louis is this: A congested. overgrown and more or less run-down central business district is being transformed; but at the same time private improvements of superior quality are being encouraged on an immense scale and drawn into the disaffected chiefly by the public work.

The visitor is impressed with the activity and spirit of progress which this condition creates. He feels that things are going on; that the community is alert, busy and prosperous. There is the value not only of both types of improvement within themselves, but the contribution to employment, to the circulation and spending of money, to general business, which they make.

Twelfth boulevard and the Union Station in St. Louis is not dissimilar from that in Kansas City. The distance between the two points in St. Louis is somewhat less. Bu in both cases there is a section canable of considerable development that has been largely peglected. In St. Louis it is that district that now is undergoing the greatest transformation. Memorial Plaza is bedeveloped adjacent to Twelfth boule vard, while at the other extremity of the district there is the Union Station Plaza development. In addition, there is the widening of Olive street, to one side of the district, and the projected widening of Market street, to the other. It is a comprehensive plan, in the execution of which the bond issue and other expenditures are being made

### PACKING FIRM FROM BUILDING

Property Owners to Ask Judge Hall to Forbid Erection of Laclede Co. Warehouse.

Pending the decision of a suit revoke the building permit, atrneys for property owners in the icinity of Shenandoah and Mc-Nair avenues went into Circuit Court today to ask Judge Hall for an injunction to stop the construction of a building adjoining the plant of the Laclede Packing Co., 2025 Shenandoah avenue.

Judge Hall, after hearing argument, asked attorneys for sides to return tomorrow for fur-He is expected to give decision at

The property owners maintain the building is intended to be an extension of the packing facilities, in violation of zoning restrictions for that district, and is radically different from the plans submitted to the Building Commissioner when the permit was granted Sept. 6 to former Director of Public Welfare Nelson Cunliff, as contractor for the structure. The permit was issued for a warehouse. reviously three applications for permits to extend packing facilties had been rejected.

Cunliff Calls It a Warehouse. And a warehouse it will be, testified Cunliff, who spent yesterday afternoon on the witness stand in a hearing conducted by Referee Harry Sprague to determine what the building is and for what pur-pose it is intended. Sprague was appointed by Judge Hall to take testimony and make recommendations in the suit, brought by the Allan Division Protective Associaion on behalf the property own-

Counsel for the property owners, Daniel \_artlett and former Judge Henry S. Caulfield, asked Referee Sprague for a restraining order when the hearing was resumed yesterday afternoon in Police Court No. 1 in the Municipal Courts Building, but Sprague sug-

gested they apply to Judge Hall.

The Police Court was selected for the hearing to accommodate as spectators a large group of residents in neighborhood of the pack-ing house. They contend it makes fe uncomfortable for them by its bjectionable odors and loud noises. Several Changes in Plans.

Cunliff appeared weary after hree hours on the witness stand answering questions about the building, the permit and how the permit was secured. He admitted here had been "several changes in he plans," but added they were A month or six weeks before the

e talked to Building Commissio Christopher and Director of Pubic Safety Brod, also to Director of Public Welfare Salisbury, about he needs of the Laclede Packing Co. and the proposed construction. "I asked Salisbury's advice," he said, 'about the type of building that could be erected legally. Preously I had talked to officers of the Laclede Packing Co. and they they needed additional storage

ter house." Some changes were made in plans subsequent to issuance of the permit, he added.

under construction as an L-shaped structure extending up to and around the present slaughter house. A concrete roof, he said, will be built over both buildings.

Refrigeration Plant.

Original building plans, rejected by the Board of Public Service, were for chill rooms and a drying house. Bartlett brought out that the basement of the new structure had been lined in part with cork with a view 1) its use for refrig cration purposes. Cunliff explained

clede Packing Co.) represent to you that if they could get away with this building they would go ahead with it as a packing plant?" demanded Bartlett. "No," answered the contractor heatedly. "And I resent the in-

erence of that 'get away with'." The suit by the property owners s an appeal from a decision of the Board of Adjustment upholding the Building Commissioner in granting the permit for a ware-house. The property owners con-tend the Board of Adjustment alswed the ware ouse only on information that it was to be erected at 2226 CNair avenue, with house intervening between it and the packing plant. Actually, they say, it is under construction at 2224 McNair avenue. Cunliff tes-tified this was a mistake of the City's house numbering depart-

Congress Is Asked to Make Unlawful Any Combination of Lines Except as Specified.

WASHINGTON, Dec. 8.—More power to control and direct rail-road consolidation policies was sought from Congress tday by the nterstate Commerce Commissi In its annual report, the Com-nission formally recommended a whole series of changes and additions to present laws governing railroad consolidation, nearly all of which would tend to give the Federal Government a firmer and more complete grip upon carrier The Commission asked that Con-

ress make unlawful "any consol idation or acquisition of the control of one carrier by another in any manner whatsoever, except with our specific approval and auhorization."

This proposal was designed to prevent railroad mergers being efected by round-about methods, in which the commission has been unable to intervene. It also asked Congress to give it "broad powers to approve or disapprove such con-solidations, acquisitions of control, mergers or unifications in any appropriate manner." Such a grant of power would insure the commission's authority to modify or allow in part proposals submitted

Finally, the commission suggested that it be allowed to disap-prove consolidation projects when these did not provide for the in-clusion of all the railroads which t considered should be included in a particular grouping. A previous suggestion that Congress repeal the aw which requires it to promulgate a general plan for con-soliating all the major railroads of the country into a limited number of great railroad systems was in-

Reporting upon its regular work for the fiscal year 1927, the commission said it had approved the issue by railroads of securities having a total par value of \$1,-157,368,000. Its work on valuation of railroads was also brought near-er a close and the report predicted that by June, 1928, the valuation work, begun in 1907, would be practically completed.

Discussing railroad operations, the commission pointed out that increased operating efficiency and greater safety for human life and limb was notable in the common carrier field at the present time.

"Although the freight business was greater in 1926 than in 1920." the report said, "there was a reduction of over a quarter of a million employes and nearby a billion ours in time worked between the two periods. For the fiscal year ended June

30, 1927, railways reported an average of 1,708,495, employes, receiving a total compensation which was about double the aggregate ompensation of 1926, compensa tion per employe per annum having creased about 80 per cent in the

"The statistics of railway accidents show a decided tendency in the directions of greater safety. So recently as 1917 the number of railroad fatalities was over 10,000. In 1926 the corresponding number was about 7000. Grade crossing fatalities, on the other hand were about 50 per cent greater than the

MISSOURI SLAYER HELD FOR KILLING FELLOW PRISONER

Charles Bringham Bound Over to Grand Jury for Stabbing St. Louisan in Prison. JEFFERSON CITY, Dec. 8,— Charles Bringham, serving a life sentence for murder, yesterday was bound over by a Coroner's jury to the Cole County Circuit Court on charges of having stabbed and killed Lawrence Mathias, 30 years old. St. Louis convict, early Tuesday morning. Mathias was found on his bunk, suffering from knife wounds. He died several hours

Nothing could be learned of the attack and Mathias could not tell who stabbed him. The Coroner's jury held Bringham responsible, however. Bringham was sent to the prison from Benton County in January, 1925, for killing a Sheriff at Warsaw. Mathias was serving three years for grand larceny.

### URGES CARE OF CHILD TO HALT TUBERCULOSIS to engage in these problems with untiring enthusiasm, when our present, much overtaxed personnel receives proper and due reinforcement with other facilities in accordance."

Dr. Bell Stresses This Protec- cordance." tion as Important Function of Public Health Work.

Protection of children against angers of incipient tuberculosis was stressed as an important func-tion of public health work, by Dr. Howard H. Bell, city tuberculosis controller, addressing the annual eeting of the Tuberculosis and Health Society of St. Louis, at Hotel Statler today. Other speakers were the Rev. A.

M. Schwitalla, regent of the St Louis University Medical School Health Commissioner Starkloff and Dr. A. J. McLaughlin of the United States Public Health Serv

"We all know that tuberculosis as an infectious disease is prévent-able, controllable and curable," Dr. Bell said. "Any community has no more tuberculosis than it tolerates, and reduction of the disease is in proportion to the peronnel, money and time spent in combatting it. There are so very many angles to the entire situation that it is exceedingly difficult to meet them all effectively. Individual Rights Involved.

"The question of individual rights is a serious one. Has a parent with open tuberculosis the right to live in contact with his own children? We say this is a free country; your freedom stops where nine begins, and your freedon does not entitle you to trespass or my rights, nor has a tuberculous habitat when such jeopardizes the

"Another point in connection with the question of individual rights—should patients be allowed to leave sanitorium care at will when they have despaired of taking the cure, to return home and un-do the gain not yet fully consoildated, only to spread the infection

"Greater publicity and education are neede, everywhere. Everyone seems agreed that the greatest gain has been made through the ing into the homes, referring all sick to physicians and to dispensaries for examination and care. To meet this situation funds are required, which after all must be provided by the voter and taxpayer. One must acquaint the public at large with such need through greater publicity. It is the citizens of St. Louis who-must become in-terested in health problems, and who must substantiate greater ex-pansion to provide for the care of

our sick in general.

Must Protect Children. "We, in tuberculosis work in all pities, deal with the end result, and pay insufficient attention to the germinating seed sowed in new soil, so often in children. We must stress further the care of children, preventing and protecting them from contact with open cases, and when they are infected, place them in institutional care, for it is in such children that tuberculosis is curable, who would otherwise go on and become advanced cases valids, charges on the community and sources for further dissemina-

tion of the disease. "We can rescue the children. Preventorium work is attracting increasing attention. By preven-torium care I refer to institutional care of debilitated children in whom tuberculosis is developing in its incipiency, or children so debili-tated from other causes that they become fertile soil for this disease. If we could control the children and contacts properly, in 20 years our sanitoriums would be prac-tically free from advanced cases: I say 20 years because our present crop would last that long or long-

Praises Work in St. Louis.
"I would like to point out that we are fully acquainted with the tuberculosis situation and its many ramifications in St. Louis. We are fully cognizant of what is before us and comprehend adequately the approach and solution of these problems. I want to remind you that we have now a tuberculosis organization with nurses under the direction of Health Commissioner Starkloff, an organization which is doing a remarkably good piece of work. If we compare what we are accomplishing with our limited personnel with what is done in other cities, we have great reason for much civic pride. I do not wish to convey the idea that we are contented and satisfied with our present number of workers, but I do wish to convey the idea

Julius H. Drucker, an attorney Commissions in city land acquisition for 12 years, has pointed out a misunderstanding in a statement attributed to him in Monday's Post-Dispatch concerning condem-

nation procedure. He was quoted as saying that a difficulty with transient commissions in this work was the fail-ure of the courts to appoint competent men in all instances, al-though able real estate men could be induced to serve as a public duty. He explained today that he meant there were able men available for transient commissions, in reply to arguments of City Counselor Muench in favor of a per manent commission. Drucker added that he had no criticism of the appointments by the courts.

59c DEMURRER FILED IN TRIAL OF ATTORNEY FOR FRAUD Joseph C. Crouch and Negro Accused of Getting Woman's \$50

on False Pretenses.
Judge Gayer of the Court of
Criminal Correction yesterday took under advisement the case of Joseph C. Crouch, attorney, and Archie Ewing, Negro, charged with obtaining \$50 by false pretenses. At the close of the State's case, which was presented to the Court after Crouch and Ewing had waived jury trial, the defense attorney filed a demurrer and Judge Gayer announced he would rule on it

The State's testimony was dis-rected to show that Crouch and Ewing took the money from Willie Askew, a Negro woman, of 1723 North Taylor avenue, on the promise that Crouch would obtain the release of her son, Thomas Hill Jr., 15, from Bellefontaine Farm. In the demurrer it was argued

that no false pretense had been shown, since Crouch might still live up to the alleged contract and obtain the release of the youth by Reliable Marcel Waving Thoroughly Trained Operators

### SOLVE WASHDAY'S BIGGEST PROBLEM

What a Gas Laundry Dryer Does

Makes washday independent of the weather. Clothes may be washed, dried and ironed in the same room on the

Conserves space by drying all the clothes in a cabinet which occupies but 10 square feet of storage space yet has a capacity equal to 60 feet of clothes

Dries lightweight pieces in 15 or 20 minutes. Heavier pieces in proportion. Sterilizes. By allowing garments to hang in dryer 20 minutes after drying all germs are positively destroyed.

Protects clothes from soot, smoke, dust, germs and fading caused by sunlight. Saves wear and tear on clothes-protecting them from whipping winds and

Washers and ironers have done much to remove the drudgery of washday but they make no provision for drying....and' this is washday's biggest problem.

The modern homemaker is solving this problem with a Gas Laundry Dryer, an efficient dryer that saves at least 50% of the time required for the laundry process and

eliminates the labor of lugging wet clothes from the washer to the line.

An automatic system of natural circulation distributes the warmed air evenly to all parts of the drying cabinet. This, coupled with thermostatic heat control, prevents scorching and discoloration.

### Special Offer to Home Owners

So enthusiastic are we over this dryer that we are making a special offer to home owners. We will install the dryer for a 30 day free trial. You use it as much as you wish. At the end of 30 days if you wish to keep it you make the first of 18 easy monthly payments. If you don't want the dryer we'll remove it and you don't owe us a cent. That's fair enough, isn't it?

At breakfast, luncheon, dinner, you daily apply to your teeth what is virtually a brown dye.

All teeth are naturally white. But a high percentage of food contains a substance chemically like gum arabic that is a glue and stain combined. It makes teeth grimy, unpleasant. Dental science has long sought a means of harmlessly removing it.

Harsh, gritty tooth pastes, while partially effective, are highly injurious to the delicate enamel. Soapy. foamy pastes give but a superficial surface cleansing. BUT NOW, through the revolutionary discovery of one of America's leading dental laboratories, an element that, by a stop watch, dissolves starch in fifteen seconds has been found! It quickly, yet safely, polishes teeth to a remarkable snow-whiteness!

How It Works

Modern foods contain a high percentage of starch. You get it in breads, pastries, potatoes, desserts, sugar, cereals—many other foods. This starch in your mouth chemically changes to a glue and a stain of dirty, brownish hue. In the tiny grooves of your teeth—500 to an inch!—it clings.

That makes teeth dull, dingy, grimy. Brushing, scrubbing, rinsing will not remove this peculiar stain-

Now at last a leading dental scientist has discovered an element that almost instantly dissolves starch on teeth. Removes the discolorant-makes yellow, dis-

Magnificent New Equipment

The latest achievement of the Wabash is shown in the new passenger cars just placed on Wabash trains to and from St. Louis. Dining cars, clab-lounge cars, coaches and chair cars have every convenience and refinement to satisfy the requirements of the most exacting passenger. These cars have many new features, including roller bearings on dining cars and club-lounge cars which give a gliding smoothness to the motion of the train hitherto unknown.

Faster Time-Improved Service

Effective December 11, improved service will be inaugurated. Train No. 3 leaving St. Louis 9:03 a.m. will make the ran to Kansas City in one hour less time than at present, arriving Kansas City at 4:33 p.m. instead of 5:30 p.m. Train No. 4, "Chicago Special," will leave St. Louis 8:47 a.m. instead of 8:30 a.m., arriving Chicago 3:45 p.m. instead of 4:30 p.m. Train No. 4, St. Louis to Detroit, will leave 8:47 a.m. instead of 8:30 a.m., arriving Detroit at 9:30 p.m. as at present. Local train No. 50 now leaving St. Louis 3:40 p.m. will leave St. Louis 2:40 p.m. for Decatur, Danville and intermediate points. Train No. 20 now arriving 2:20 p.m. from St. Paul and Minneapolis will arrive 1:50 p.m.

No Better Trains Anywhere

The Banner Blue Limited with added refinements of larest design dining car, equipped with roller bearings; the Chicago "Midnight Limited," with new club-lounge cars on roller bearings; and the Kansas City "Midnight Limited" with compartment sleeping cars and new club-lounge cars equipped with roller bearings are among the world's finest trains. There are no better trains anywhere. Other fine Wabash trains are the Omaha Limited, Pacific Coast Limited, Continental Limited, Detroit Special and North Star Limited.

Kinsey Expects Project to Be Completed by Fall of 1930 or Spring of 1931.

1931 should bring completion of which is a year sooner than had been expected, President Kinsey of the Board of Public Service reported to Mayor Miller yesterday.

While it had been estimated, before an \$11,000,000 bond item was voted for this purpose in 1923, that construction costs would amount to \$10,000,000. it now appears they will be \$303.752 less than this, Kinsey said. The anticipated balance of \$1,303.752 will be available for payment for the right-of-way, after condemnation proceedings are finished, and for any contingencies arising.

This will be sufficient, when added to benefit assessments under the condemnation, to pay for the right-of-way, Kinsey declared today. Three and one-half miles of the project are completed, from Lindenwood to a point near Manchester avenue and Kingshighway. Between that point and Forest Park, and between the northern edge of the park and the western city limits, the right-of-way is ready, and the park, of course, is city property. An unusual form of contract was given the W. E. Callahan Construction Co., for the sections just finished, parallel to Manchester ave-nue, Kinsey told the Mayor. It provided for the city to meet actual cost of the work and of extras made necessary by the uncontrol-lable behavior of the Des Peres, plus a fee as profit. It avoided a lump payment for the extra cost of flood contingencies based on the contractor's guess. The contractor, Kinsey added, received a smaller profit than usual on such work because the element of hazard was

The city estimated the cost a \$1,117.500, including \$925,000 for base cost, \$92,500 for fee and \$100. 000 for extras. Excessive rains th made the extras run up to \$239,233. Billy Evans Here on Way Home From Dallas Where It Was Announced Fletcher Had Been

"If the New York baseball club is willing to retain me as coach, I will not manage the Cleveland baseball team next summer," said Arthur Fletcher, in a telephone conversation with a Post-Dispatch reporter at noon today.

"I have not been offered the job as manager of the Cleveland club. In fact. I have had no communication from any of the Cleveland officials regarding my willingness to accept the job," said Fletcher.

He was informed that New York and Dallas dispatches indicated that Miller Huggins, the Yankee manager, and Ed Barrow, business manager, had signified New York's willingness to release Fletcher if he cared to accept the Cleveland post, but at the same time expressed regret at the prospect of parting with him. Fletcher was a coach with the Yanks last year after having been replaced as manager of the Philadelphia Nationals.

"Satisfied With Present Job." "I am perfectly satisfied with my job as coach of the Yanks, and if they want to keep me that's where I'm going to stay," said Fletcher. He said that he was unaware that Billy Evans, newly appointed general manager of the Cleveland club, arrived in St. Louis this morning from Dallas for the express purpose of meeting Fletcher and signing him to a contract as manager. "Haven't heard from him," said

DALLAS, Tex., Dec. 8.—Proposed revision of the Major-Minor League draft agreement was the outstanding question remaining before the National Professional Baseball Association at the final essions of its convention here to-

Discussion of the draft rules yesterday brought threats from some minor club owners to terminate the agreement. Arguments finally centered on how long the agreement made seven years ago was intended to run. One faction contended it was supposed to terminate this year, while another group quoted a section of the pact indicating it was to remain in effect during the life out f Kenesaw Mountain Landis, comnissioner of baseball. ADVERTISEMENT STOP BAD BREATH

People afficied with bad breath and quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets, are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects. Olive Tablets bring no griping, pain or any disagrecable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients affliched with bowel and liver complaint, with the utlendant, bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil: you will know them by their olive solor. Take nightly for a week and note the effect. 15c, 30c, 60c. All Druggists.

#### MEDICAL QUESTIONS

Health and sanitation questions of public interest only will be considered. Diagnosis or treatment of individual cases will not be given.

OLD SUBSCRIBER—If the displacement so far has given no trouble or impaired your health in any way, it is by no means likely to do so in the future. Of this you may be fully assured whatever others, not knewing, may tell you to the contrary.

PATNE. — The symptom mentioned does not necessarily indicate tuberculosis, unless associated with other symptoms, as persistent cough, and afternoon or svening rise of temperature above mormal (98 6-19). The sputum should be examined and this will be done free of charge by the city Bacteriologist if sent by a doctor of the Health Department.

NUISANCE.—Gritting the teet is doubtless due to a certain degree of nervousness and hence to be benefited by leading a well-regulated life, systematic outdoor txercise, correcting constipation, freedom from overwork and worry. Take a hot bath at bed time and a cold shower in the morning. Practice sleeping on your side, instead of the back. Take a 10-strain powder of trional at bedtime for a while to secure profound sidered. Diagnosis or treatment of individual cases will not be given.
